Hiring Process for Position of Operations Manager

February 2019

Supplemental Application Question

The application process for this position requires a personal written (typed) response to a pre-determined question. Your response must be included with your application packet.

We are interested in knowing more about the particular skill set you will bring to this position.

The position of Operations Manager may require skills that are different from what has made you successful in your past work experience. Briefly highlight the skills you possess and how you have applied these skills to achieve successful work experiences. What are some specific things you have accomplished by applying these skills? In what specific areas will you need assistance or further training to fully carry-out the scope of responsibility attached to this position?
